

SHELL SINGAPORE BY THE YEARS

125 

YEARS SHELL IN SINGAPORE

1891–2016

1922

Pictured here, one of Shell's earliest pumps in Singapore. The very first Shell retail pump was opened on Orchard Road. Today Shell has close to 60 retail stations across the country.

1937

Refuelling operations in Singapore officially began at the old Kallang Airport. We have supplied fuel to Singapore Changi International Airport for over 30 years.

1958

Inaugural Shell Traffic Games in Singapore held at makeshift road safety park at Kallang. Then Prime Minister Lee Kuan Yew presented prizes.

1960

Shell awarded "Pioneer Certificate No. 1" by Singapore government to set up Singapore's first oil refinery.

1963

Shell Woodlands North Lubeoil Blending Plant officially opened. Today, it can supply 240 million litres of lubricants and grease to 33 countries.

125

YEARS SHELL IN SINGAPORE

1891–2016

2000

Shell launched Shell V-Power in Singapore, the first premium performance fuel in the market. In September 2015 we introduced Shell V-Power Nitro+.

2009

World-scale Mono-ethylene Glycol (MEG) plant, one of the largest MEG plants in the world, officially opened.

2010

Shell Eastern Petrochemicals Complex completed, making Bukom an integrated oil and petrochemicals site, with manufacturing facilities for fuels, lubricant base oils and specialty chemicals.

2014

Shell Aviation became sole provider of fuel storage management and refuelling operations at Seletar Airport.

2015

Upgraded the Ethylene Cracker Complex, bolstering company's largest refining-chemicals integrated site.
